Version Number / Status:	1
Executive Lead	Trudi Grant, Director of Public Health Jonathan Higman, Chief Executive
Clinical Lead:	N/A
Author:	Lou Woolway, Deputy Director Public Health (Service Director)

Summary and Purpose of Paper

In September 2022, the ICB Board approved the approach to align the Somerset Health and Wellbeing Board (HWB) and the Somerset Integrated Care Partnership (ICP).

Interim arrangements were put in place from the period October 2022 to March 2023, which saw the HWB and the ICP sit as committees in common.

A workshop was held in March 2023 for each committee in common's members to develop the proposed approach to the 'Somerset Board'. This included the proposed purpose, membership, and details on how the Board will run. The proposals were approved by each committee in common at the workshop.

The proposed purpose of the Somerset Board will see it become a high-level strategic partnership for health care and wellbeing across the county; in essence to consider all influences on what it is to live and work in Somerset. It comprises members of the Somerset HWB and ICP.

A committees in common approach assists with meeting, while also streamlining the operation of:

- The HWB which is a statutory committee of the Council, required under the Health and Care Act 2012.
- Arrangements for ICPs, as set out in the Local Government and Public Involvement in Health Act 2007, so that Integrated Care Boards (ICB) and all upper-tier local authorities that fall within the area of the ICB must establish an ICP.

To the extent possible, the Somerset HWB and the Somerset ICP will function as committees in common through the Somerset Board. However, the functions of the two committees remain legally distinct and decisions of each committee need to be taken and minuted separately.

This report proposes the future arrangements for the Board for consideration and approval, including amendments to the current HWB and ICP terms of reference to allow them to be better aligned.

Background

Somerset is a low-complexity system where the purpose of the HWB and the ICP are in accord and the strategic vision for the population is aligned.

The committees in common arrangements that were put in place from October 2022 to March 2023 have worked well; therefore, the approach is to build upon the interim arrangements and develop the Somerset Board, redefining its purpose and membership.

Both the HWB and the ICP are legal entities, and therefore legally distinct to the Somerset Board. Decisions of each committee will need to be added to the agenda and minuted separately. This has been built into the proposed governance arrangements for the Somerset Board where agenda items will be marked as HWB or ICP business accordingly.

The purpose of the Somerset Board is to understand the needs of the population and, collaboratively, with the community and all sectors in the county, determine and agree the longer-term strategic vision for the county, pushing forward agreed priorities to improve the lives of the Somerset population and directing how the assessed health and care needs for the population of Somerset are to be met.

The Somerset Board will provide strategic leadership to improve the health, care, and wellbeing of Somerset residents by leading the health and wellbeing agenda and deciding its strategic direction. It will hold key organisations, agencies, and sectors to account to ensure health and wellbeing is maximised, thereby tackling significant challenges facing the county over the medium and long term.

Somerset Board members will also be members of the HWB and the ICP. This will allow the Board to meet the statutory functions of the HWB and the ICP (Statutory functions are detailed in the previous full council paper from October which is included in the background papers).

The Somerset Board Constitution (**Appendix A**) consequently includes separate sections within it with the terms of reference for the HWB and ICP.

Membership of the Somerset Board will be significantly larger than current arrangements (details of proposed membership included in **Appendix A**).

The Somerset Board will meet in public and will meet 3 times a year.

Accountability for the delivery of the statutory duties and the Improving Lives and Health and Care Strategies will be through the organisations represented on the Board.

When proposals have been approved by Somerset Council's Full Council and NHS Somerset Integrated Care Board, officers will develop an induction programme for members and confirm dates for the public meetings and workshops.

An officer Executive Group will support the Somerset Board, continuing the arrangement that has been in place with the committee in common.

Recommendations and next steps

That the ICB Board considers the proposals and approves the approach to align the HWB and the ICP committees to sit in common through the Somerset Board.

That the ICB Board approves the attached overarching Somerset Board Constitution which includes updates to the Terms of Reference for the HWB and ICP (Appendix 1).

Quality	None			
Safeguarding	None			
Privacy	The Somerset Board will meet in public.			
Engagement	The committees in common endorsed the proposals included within this report at a workshop, and the meeting in public on the 27 March 2023, and the proposals are being considered at the Full Council.			
Financial / Resource	The new arrangements will require support. It has been agreed that this will be a shared responsibility between Somerset Council and the Integrated Care Board.			
Governance or Legal	Legal advice has been taken in the development of these proposals to ensure that the HWB and ICP can continue to be run in line with the appropriate legal frameworks for each.			
Sustainability	None			
Risk Description	There are risks of duplication, wasted capacity and disjointed approaches if the committees continue to meet separately. However, while the streamlining of the functions of the HWB and ICP is extremely valuable, it is important that Board members remain aware that they hold statutory obligations when acting on behalf of each individual entity.

The Somerset Board Constitution

The Somerset Board is the single high-level strategic partnership board for health, care and wellbeing for the county: in essence to consider all influences on what it is to live and work in Somerset.

It operates in conjunction with the Somerset Health and Wellbeing Board (HWB) and the Somerset Integrated Care Partnership (ICP) sitting as committees in common.

The Somerset Board consists of senior representatives from key organisations, agencies and sectors that have an impact and influence upon the health and wellbeing of the Somerset population.

The committees meeting in common fulfil two statutory requirements:

- The HWB is a statutory Board of the Council required under the Health and Care Act 2012.
- Arrangements for Integrated Care Partnerships (ICP) as set out in the Local Government and Public Involvement in Health Act 2007 so that Integrated Care Boards (ICB) and all upper-tier local authorities that fall within the area of the ICB must establish an Integrated Care Partnership.

Wherever possible the Somerset HWB and the Somerset ICP will function as committees meeting in common through the Somerset Board. However, the two committees are legally and constitutionally distinct and there may be occasions where decisions of each committee need to be taken separately because of the limits on the functions of each.

Aim

Its purpose is to understand the needs of the population and, collaboratively, with the community and all sectors in the county, determine and agree the longer-term strategic vision for the county, pushing forward agreed priorities to improve the lives of the Somerset population and directing how the assessed health and care needs for the population of Somerset are to be met.

The Somerset Board will provide strategic leadership to improve the health, care and wellbeing of the residents of Somerset leading the health and wellbeing agenda, deciding its strategic direction, and holding key organisations, agencies, and sectors to account to ensure the health and wellbeing, including a focus on improving the health and care of the local population is maximised. The Somerset Board will identify and unify to tackle some of the significant challenges facing the county over the medium and longer term.

The core roles and responsibilities of the Board and its members are as follows:

Responsibilities

The Board, through the Somerset HWB or the Somerset ICP (as appropriate depending on the decision and as set out in each board's terms of reference), shall identify and agree health and wellbeing needs and priorities across Somerset through:

- a) Providing a structure for strategic local planning and challenge to the provision of health and wellbeing, and health and care related services across a range of sectors and providers.
- b) Assessing the needs of the local population and lead the statutory Joint Strategic Needs Assessment ('JSNA') with an annual refresh and publication of the Joint Strategic Needs Assessment (JSNA) to support evidence-based prioritisation, commissioning, and policy decisions.
- c) Ensuring that the JSNA drives the development of the Health and Wellbeing Strategy (Improving Lives), and the Health and Care Strategy and influences other key plans, strategies, commissioning, and service delivery across the County.
- d) Undertaking the Pharmaceutical Needs Assessment every three years or sooner if required.
- e) Preparing, agreeing and publishing of the Somerset Health and Wellbeing Strategy (SHWBS). The SHWBS will set a high level joint strategic vision for health and wellbeing, taking into account the JSNA and the Annual Public Health Report(s), as well as national policy developments and legislation. Organisations represented on the Board have a duty to take heed of the strategy, its outcomes and metrics and will be held to account for their contribution to delivery of outcomes.
- f) Preparing, agreeing and publishing of the Health and Care Strategy. The Health and Care Strategy will set a high level joint strategic vision for health and care, taking into account the JSNA and the Annual Public Health Report(s), as well as national policy developments and legislation. Organisations represented on the Board have a duty to take heed of the strategy, its outcomes and metrics and will be held to account for their contribution to delivery of outcomes.
- g) Actively engaging with the other key partnerships, and Boards to ensure the achievement of outcomes in all agreed areas and to extend the reach of the Improving Lives and Health and Care Strategies by ensuring alignment with other strategies and plans.
- h) Discharging all functions relating to the Better Care Fund that are required or permitted by law to be exercised by the Board including: Agreeing the Better Care Fund; and overseeing the delivery of the Better Care Fund and Improved Better Care Fund. This includes providing a regular written progress report on each of the schemes under the fund to the Board.
- i) Overseeing the implementation of the statutory requirement within the Children and Families Act 2014, for local services to work together providing care and support for children and young people with special educational needs and disabilities (SEND), ensuring that local services are fulfilling their role and that children are getting the care they need.
- j) Ensuring that the Local Integrated Care Board and Partnership, Local Authorities, NHS England, and Police demonstrate how the JSNA has driven decision making.

k) Advocating for the integration of services where it is beneficial to do so.

In order to undertake the system leadership role, the Board will meet in public three times a year with a workshop programme for Board Members being delivered.

Accountability for the delivery of statutory duties and the Improving Lives and Health and Care Strategies will be through the organisations represented on the Board.

SOMERSET INTEGRATED CARE PARTNERSHIP (ICP) TERMS OF REFERENCE

1. Constitution

Statutory arrangements for Integrated Care Partnerships (ICP) are set out in the Local Government and Public Involvement in Health Act 2007 (2007 Act) so that Integrated Care Boards (ICB) and all upper-tier local authorities that fall within the area of the ICB must establish an ICP.

For Somerset, the ICP is established jointly by the Somerset ICB and Somerset Council.

These Terms of Reference set out the membership, purpose, responsibilities, and reporting arrangements of the Somerset ICP.

2. Purpose, Duties and Responsibilities

Somerset ICP convenes stakeholders across health, care, public health, the voluntary, community and social enterprise sector, together with other public sector partners and public voices to facilitate cooperation and collaboration with the aim of improving health and care across the population of Somerset.

Members of the Somerset ICP will seek to act in the best interests of the population of Somerset and the wider Integrated Care System (ICS) rather than representing the individual interests of any one constituent organisation, subject to any legal obligations to the contrary.

As set out in the 2007 Act, the primary purpose of the ICP is to prepare, maintain and publish a strategy (an “Integrated Care Strategy”) setting out how the assessed health and care needs for the population of Somerset are to be met by the functions of the partner organisations in the Somerset ICS. In drawing up the Integrated Care Strategy the ICP may set out its views on how arrangements for the provision of health-related services in Somerset could be more closely integrated with arrangements for the provision of health services and social care services in Somerset.

In doing so the ICP will:

- Consider the extent to which the needs could be met more effectively by the making of arrangements under Section 75 of the National Health Service Act 2006 (rather than in any other way)
- Involve Healthwatch Somerset
- Involve the people who live or work in Somerset.

And have regard to:

- The NHS Mandate
- Any guidance issued by the Secretary of State
- The Somerset Joint Strategic Needs Assessment.

- Somerset's Health and Wellbeing Strategy, Improving Lives

To deliver its primary purpose, the expectations of the ICP are:

1. To be a core part of the Somerset Integrated Care System (ICS), driving their direction and priorities
2. Be rooted in the needs of people, communities and places.
3. Create a space to develop and oversee population health strategies to improve health outcomes and experiences.
4. Support integrated approaches and subsidiarity.
5. Be open and inclusive in strategy development and leadership, involving people, communities and partners to utilise local data and insights

The Health and Care Strategy will set out how commissioners in the Somerset ICB and Somerset Council, working with providers and other partners, can deliver more joined-up, preventative, and person-centred care for the whole Somerset population, across the course of their life.

The Health and Care Strategy will complement the Somerset Health and Wellbeing Strategy and will build on existing work with regard to strategies that support integrated approaches to health and care.

The Health and Care Strategy presents an opportunity to do things differently, such as reaching beyond 'traditional' health and social care services to consider the wider determinants of health or joining-up health, social care and wider services.

3. Authority, Accountability and Reporting Arrangements

Statutory arrangements for ICPs are set out in the 2007 Act so that ICBs and all upper-tier local authorities that fall within the area of the ICB must establish an ICP.

Somerset ICB and Somerset Council are statutory members of the ICP and form an equal partnership. As statutory members, they are required to set up and run the ICP.

The Somerset ICP has no power to exercise any function other than to prepare, publish and maintain the Integrated Care Strategy as set out in section 2. The Somerset ICP has no other delegation to make decisions on behalf of Somerset Council, the Somerset ICB or any other partner bodies. Issues requiring decision outside the powers of the Somerset ICP must be referred to the constituent bodies.

The ICP will provide the ICB Board and Somerset Council with an Annual Report summarising its conclusions from the work it has done during the year.

Establishment of Sub-Groups

The ICP may establish working groups or task and finish groups to undertake work in line with its core purpose and responsibilities. The ICP shall determine the membership and terms of reference of any such groups but may not delegate any decisions to such groups.

The ICP may not formally establish sub-committees with delegated authority as there is no legislative provision to do so.

4. Membership

As outlined in the 2007 Act, the Somerset ICP is at a minimum to consist of:

- One member appointed by the Somerset Integrated Care Board
- One member appointed by Somerset Council
- Any members appointed by the Somerset Integrated Care Partnership

The agreed membership of this ICP will be:

- Up to 7 members of Somerset Council including the relevant Executive Members for Health and Wellbeing, Adult Social Care and Children and Families, 1 member of the Opposition and 1 other Council member – all to be chosen by the Leader of the Council
- 5 nominees of the Somerset Integrated Care Board
- 1 General Practice representative
- 1 Primary Care representative
- Chief Executive Officer Somerset Council
- Executive Director Public and Population Health, Somerset Council
- Executive Director of Adults and Health, Somerset Council
- Executive Director of Children's Services, Somerset Council
- Executive Director of Strategy Workforce and Localities, Somerset Council
- 1 Representative nominated by NHS England
- Chief Executive Officer Somerset NHS Foundation Trust
- 2 Representatives from the Voluntary, Community, Faith and Social Enterprise (VCFSE) sector in Somerset
- 1 Representative of Registered Care Providers operating in Somerset

Appointment of Members

Where a member organisation is not listed by name, the appointment of that representative is delegated to the Monitoring Officer, Somerset Council in consultation with the Somerset ICB.

Chairing Arrangements

The Chair will be the Chair for the time being of the HWB.

There will be appointed up to two Vice-Chairs. The Vice-Chairs will be the Vice-Chairs for the time being of the HWB.

5. Quorum

To ensure that sufficient members are present at all meetings for the effective conduct of business the quorum will comprise over 50% of the current voting members and must include at least two voting members of Somerset Council and two voting members of the Somerset ICB.

If the quorum is not reached, matters may be discussed and recommendations made but no decisions taken.

6. Decision Making and Voting

Members must have delegated authority from their organisations to take a full part in the business of the ICP.

It is expected that decisions or recommendations shall be reached by consensus. In exceptional circumstances where consensus cannot be achieved and a formal vote is required, the matter shall be decided by a simple majority of those members voting and present in the room at the time the proposal is considered. The vote shall be by a show of hands and each member is allowed one vote. If there are equal votes for and against, the Chair will have a second or casting vote.

There will be no restriction on how the Chair chooses to exercise a casting vote.

Decisions within the terms of reference will be taken at Board meetings. The Somerset ICP has no power to make decisions outside its defined area of responsibility. Any issues requiring decision outside the remit of these terms of reference must be referred to the constituent bodies.

7. Procedural Rules and Administration of Meetings

Detailed procedural rules will follow those laid out for the HWB (Appendix C).

An administering authority and Secretariat function will be appointed to support the ICP, aligned to the HWB.

8. Standards of Business Conduct and Managing Conflicts of Interest

To ensure the best outcomes, the development of clear channels of communication and mutual respect for the roles and responsibilities of each party is essential. ICP members will act in good faith and follow the Seven Principles of Public Life; set out by the Committee on Standards in Public Life (the Nolan Principles).

ICP members will follow principles of good decision-making, including:

- Giving consideration to all options available
- Having regard to due consultation
- Giving consideration to professional advice from officers and executives

The ICP recognises and acknowledges that its members from partner organisations have legal responsibilities to the organisations which they represent and that this may give rise to conflicts of interest being present. However, discussions at the meetings are to be focussed on the needs of the Somerset population and health and care and members will not be excluded from engaging in discussions that will benefit the system as a whole.

The ICP shall adopt the following approach for managing any actual or potential material conflicts of interest.

- All members of the ICP remain bound at all times by their nominating organisation's governance framework for managing conflicts of interest, probity and decision making.
- All members, ex-officio members and those in attendance must declare any actual or potential conflicts of interest, which will be recorded in a register presented at each meeting, in accordance with Somerset Council and ICB policies and codes of conduct.
- Those present at ICP meetings must declare interests relating to items on the agenda which will be recorded in the minutes. Anyone with a relevant or

material interest in a matter under consideration will be excluded from the discussion at the discretion of the Chair.

- For the Chair to take overall responsibility for managing conflicts of interest within meetings as they arise.
- If the Chair has a conflict of interest then the Vice-Chair or, if necessary, another member of the ICP will be responsible for deciding the appropriate course of action.

In advance of every meeting consideration will be given as to whether conflicts of interest are likely to arise in relation to any agenda item and how they should be managed. This action will be led by the Chair with support from the Secretary.

9. Monitoring of Effectiveness

The effectiveness of the ICP shall be monitored at least annually through a review process. The ICP will utilise a continuous improvement approach and will be encouraged to review the effectiveness of the meeting at each sitting.

10. Review

These terms of reference will be reviewed at least annually and more frequently if required. The ICP has authority in law to amend its procedures but must submit proposed amendments to these terms of reference to the ICB Board and Somerset Council for comment before any motion to adopt the amendments is moved.
